

Washington Stormwater Center

May 2, 2011

It may be May already, but it's still raining - a lot! And with it comes stormwater. Here's the latest news and events from Washington Stormwater Center to fit with the stormwater weather.

INTRO TO LOW IMPACT DEVELOPMENT WORKSHOPS

Washington Stormwater Center is hosting its first workshops: Intro to Low Impact Development. With two planned locations and audiences, there will be something for everyone at these FREE LID workshops!

LID for Western Washington May 23, 2011

Presented by local experts in low impact development, this workshop will address regulatory drivers, site-planning, BMPs, and implementation costs and tools.

Puyallup Workshop Details:

- When: May 23, 2011, 1pm - 5pm
- Where: WSU Puyallup Research and Extension Center
- Cost: **FREE**

LID for Eastern Washington June 3, 2011

LID in Eastern Washington? Of course! Learn how to reduce barriers to LID implementation, what LID practices are appropriate for Eastern WA climate, regulatory drivers, site-planning, and BMPs.

Pullman Workshop Details:

- When: June 3, 2011, 10:30am - 3:30pm
(1-hour break for lunch @ 12:30pm)
- Where: WSU Campus, Pullman, WA
- Cost: **FREE**

NAVIGATING STORMWATER FOR YOUR BUSINESS

Association of Washington Business Seminar Event

This AWB-presented seminar for Washington businesses will discuss how third-party lawsuits can affect your business, answer your individual questions, and introduce you to new local resources available to help your business with stormwater permit compliance.

Bring your questions and comments for the panel of stormwater experts and discussion issues your business faces with stormwater runoff.

Seminar Details:

- When: May 19, 2011, 930am - 1100am
- Where: Olympia
- **Also available via Webinar!**
- Cost: FREE

As always, you can submit [comments](#) and questions regarding the web pages, events, or stormwater issues and concerns.

Washington Stormwater Center is here to help *you*.

Sincerely,

Joy Rodriguez
