Hello Introduction to LID for Inspection and Maintenance Staff (Module 2.1) Participants,

The Introduction to LID for Inspection and Maintenance Staff field session is coming up on March 5. Below are some details to prepare for class:

- In preparation for the field session, please watch Videos 1 through 8 from last year’s LID O&M training: https://www.youtube.com/playlist?list=PL8Bml4b96dKaO00KU9g4hQuVlgs5I-oe (Videos 9 & 10 are optional, the total length of all 10 videos is approximately 2 hours)

- This 9-minute video on the Decatur Street project that we will be visiting also provides some good background information and it is recommended that you watch it prior to the training: https://www.youtube.com/watch?v=Qmum_7Yv_BU

- We will be meeting at the NE corner of Decatur Woods Park (10th Ave SW and Decatur St. SW) and also visiting another nearby site. We will have directions available to any additional sites for you when you arrive at Decatur Woods Park.

- No specific agenda has been developed for this training, but we will be working in small teams to inspect the LID facilities at each site (using a field form that will be provided) and discuss maintenance needs and challenges with the group.

- We will be outdoors for the entire training, so dress according to the weather.

- The training will start at 10:00am and is scheduled to last for 2 hours.

Look forward to seeing you on March 5,

The Statewide LID Training Program Team
