

Washington Stormwater Center

June 21, 2011

Ready? Update your web browser bookmarks and take a tour of our new [website](#). We hope you find it easy to navigate, and full of information.

If you have photographs we can share in the [photo gallery](#), videos for the [Stormwater Channel](#), or materials for our [resource library](#), [let us know](#).

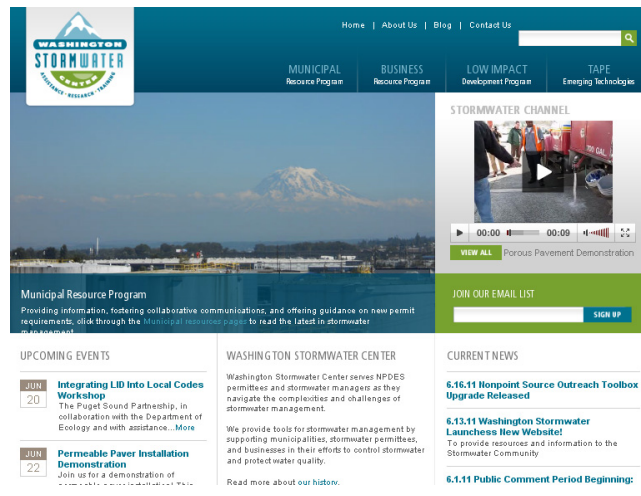

PROVIDING RESOURCES AND INFORMATION THE STORMWATER COMMUNITY

Washington Stormwater Center Launches New Website

With much new information, research and technologies circulating on the topic of stormwater, Washington Stormwater Center was created to offer Stormwater Permittees in Washington a resource for information, training, and support.

As Washington Stormwater Center continues on that mission, we have launched a new user-friendly website to host scores of information and provides access to stormwater resources.

Come take a look at the [new website](#), offer [feedback](#), and enjoy a fun video or two on the [Stormwater Channel](#).

PERMEABLE PAVER INSTALLATION EVENT

Join us for a demonstration!

Several local companies - Mutual Materials, and Abbotsford Concrete Products, Appian Construction and Cal-Portland - have teamed up to sponsor the installation of a 1200 ft² parking area in front of the WSU-Puyallup Administration Building. Sponsored items include the pavers, aggregate, and installation of the materials.

You can be there to witness the project in action, ask questions, and relish in the addition of *another* LID structure at WSU-Puyallup!

Event Details:

Event Details:

- When: June 22, 2011 10:00am - 1:00pm
- Where: 2606 West Pioneer, Puyallup 98371
- Cost: FREE, but registration is **required**

As always, please feel free to submit [comments](#) on our web pages, events, or other stormwater issues and concerns.

Washington Stormwater Center is here to help *you*.

Sincerely,

Joy Rodriguez
