

Washington Stormwater Center

August 10, 2012

We hope that you are finding the services and website of the Washington Stormwater Center to be a valuable resource.

We are writing with a few items of interest on this sunny Friday afternoon!

Position Opening: Municipal Resource Specialist

The Washington Stormwater Center has re-posted a position opening for a Municipal Resource Center Specialist. The position will be based at WSU-Puyallup.

The complete position description is available on the [WSC website](#).

Applications will be accepted until August 27, 2012.

Applications Requested for LID Technical Review Committee

The Eastern Washington Low Impact Development - Stakeholders Advisory Group is requesting applications for volunteer membership on a Low Impact Development (LID) Technical Review Committee (LID-TRC). The LID-TRC will assist with providing technical evaluations and input at various stages during the development of an Eastern Washington LID Guidance Manual (Manual).

Applicants may include individuals from municipalities, counties, industry, research universities, agencies, interest groups, and consultants that have experience/expertise in low impact development, planning, landscape architecture, engineering, soil science, botany, hydrology, geology, construction, etc.

The Manual, being developed under a grant from the Washington State Department of Ecology, will provide low impact development (LID) guidance to developers, planners, engineers, architects, landscape designers and contractors. The Manual will establish specific design criteria and development standards for site planning, design, performance, operation, inspection and maintenance of LID practices.

For additional information regarding the role of the LID-TRC throughout the development of the Manual, please read the [announcement document](#).

If you would like to be considered for membership on the LID-TRC, please complete the [application form](#) and submit no later than August 31, 2012 to:

[Tanyalee Erwin](#), Manager
Washington Stormwater Center
2606 West Pioneer
Puyallup, WA 98371

If you have specific Manual development process related questions, please contact the project administrative coordinator:

Russ Connole
Project Manager, Spokane County-Engineering & Roads
509-477-7245 or rconnole@spokanecounty.org

As always, please feel free to [contact us](#) with your comments or questions about our website, events, or other stormwater issues and concerns.

Washington Stormwater Center is here to help *you*.

Sincerely,

Washington Stormwater Center
