

Municipal Bulletin Jan. 20, 2021 Municipal Permittee Bulletin: Inquiries, Resources and News

Good morning Municipal Stormwater Permittees, by Laurie Larson

This bi-weekly Municipal Stormwater Bulletin contains information to be shared, including a request for information from permittees, updates on workshops/trainings, and news. There is a lot of useful information please share with others who could use the information.

PERMITTEE HIGHLIGHTS

The Runoff Vol. 2 Gig Harbor

Stormwater Newsletter (attached)

<https://www.cityofgigharbor.net/DocumentCenter/View/2980/The-RunOff---Winter-2020>

PERMITTEE REQUEST FOR INFORMATION If you have any information to share for the permittees requests below, please reach out!

The Water Research Foundation (WRF) is conducting a short survey related to the International Stormwater Best Management Practices (BMP) Database project BMP Database, which includes a long-term performance database of urban stormwater control measures (SCMs or BMPs) and associated tools and interpretive reports. For 2020 Summary Statistics, please visit

www.waterrf.org/system/files/resource/2020-11/...

This short survey can be completed in less than five minutes and will enable WRF and other project co-sponsors to better understand current uses of the project and prioritize future support of this long-term project. The survey will run through 1/31/21. The survey web link is located at:

<https://www.surveygizmo.com/s3/5803539/WRF-BMP-Database>

REGIONAL PERMIT COORDINATOR MEETINGS: Contact Laurie Larson for meeting information.

ROAD Map (Regional Operations and Maintenance Program)

Jan. 21, 2021 1:00-3:30pm

Meeting Topics: Porous Pavement Maintenance (research, lessons learned, cleaning demo)

South Sound Phase II Coordinator's Group

Jan. 21, 2021

Feature presentation: Watershed Prioritization Mapping Tool (City of Tacoma)

RESOURCES:

WSC Municipal Stormwater Talks January 26, 2021 at Noon

To attend contact: Laurie Larson laurie.larson-pugh@wsu.edu

Title: **Green Stormwater Infrastructure (GSI) Projects Regional Model**

Presenter: David Jackson, Community Conservation Program Manager Snohomish Conservation District

The presentation will cover the basics of the grant that allowed us to do with work, the districts we partnered with, the projects that were completed, the lessons learned, and the next steps we are hoping to take. We hope that this will help inform others of these resources and facilitate regional planning.

Community-Based Public-Private Partnership Center of Excellence and Offers Free Technical Assistance to Communities - NMSA launched the Community-Based Public-Private Partnership (CBP3) Center for Water, Energy and Equitable Economic Resilience and concurrently are offering free technical assistance to communities who wish to learn more about the CBP3 program approach. The press release on this launch can be found at: http://nationalstormwateralliance.org/wp-content/uploads/2021/01/NMSA_CBP3_Center_Announcement.pdf. and at <http://nationalstormwateralliance.org/cbp3/techsupport/>

COVID-19 Resources for Local Governments

MRSC is continuously updating our COVID-19 content and collecting new sample documents to keep local governments informed during the current crisis. <http://mrsc.org/Home/Explore-Topics/Public-Safety/Emergency-Services/Public-Health-Emergencies.aspx>

WORKSHOP/TRAINING OPPORTUNITIES: *These dates are subject to change depending upon COVID-19 containment measures.

Toxics in Puget Sound Workshop February 5th 9am-4:30pm

Hear updates about monitoring, research and emerging science, hosted by the Stormwater Strategic Initiative Lead (SIL), part of the Puget Sound recovery community.

The workshop will address the pressing issues associated with our Toxics in Fish while providing broader context regarding prevention, human health and a wide range of contaminants and toxicants. The workshop is designed to identify red flag monitoring for action follow up.

The February 5th Workshop day will focus on science only and will address PCBs, PAHs, PBDEs and CECs, among other toxic chemicals. We will be emphasizing emerging science and the discussion will address sources, pathways and impacts.

A follow-up February 26th Workshop day will focus on approaches, barriers and keys to success and a path forward for solutions and interventions.

The event is free, but you must register in advance: <https://toxicsinpugetsound.brownpapertickets.com>

A Zoom link will be shared upon registration and an agenda will be sent the week before.

If you have any questions, please contact Heidi Siegelbaum at Heidi.Siegelbaum@wsu.edu.
