Hi All,

Here is the information shared at the Oct. 20 BIG meeting:

The next Step if SAM funding is awarded for the Source Control Guidance Manual and Inspection Training is to identify the information and resource tool gaps not identified in the BIG Report. Here is the link to the BIG Report for your review. Please send any suggestions for information or tools needed to laurie.larson-pugh@wsu.edu. BIG Report link: <https://www.wastormwatercenter.org/big-business-inspection-group/>

Snohomish County's PIC Program : <https://snohomishcountywa.gov/3433/About-PIC>

King County's PIC program: <https://www.kingcounty.gov/depts/health/environmental-health/piping/PIC.aspx>

Information on how to participate in the Dumpster Outreach Group implementation team contact: Tally Young (tyoung@redmond.gov) or Laurie Deveraux (LDeveraux@bellevuewa.gov)

Sample inspection letter curtesy of City of Redmond: Contact Tally Young (tyoung@redmond.gov)

A Message from the City

Hi **[RECIPIENT]**,

I hope this email finds you well.

This has been an incredibly challenging year for all. To protect the health and safety of our staff and residents, the City temporarily stopped conducting any pollution prevention assistance site visits for the past several months.

I believe that your business is currently open in accordance with Washington State's Safe Start Plan. As such, I'd like to resume and schedule a site visit at your facility on **[DATE AND TIME]**. The inspection will include the evaluation of hazardous materials storage (ex. oils and chemical products) and other potential stormwater threats. I'd also like to provide you with free resources for your business, such as hazardous waste disposal options, secondary containment if needed, and spill kits.

We understand that this is a challenging time for the Redmond business community, and if you would like to reschedule the inspection for a later time, please just let me know.

Thank you,

Please help the MuniCon Planning Team determine if there is interest in workshops scheduled for MuniCon 2021 April 5-8 by completing the 2 survey questions below. Return your answers to Laurie.larson-pugh@wsu.edu.

MuniCon 2021 Workshop Poll: Meeting Oct. 15, 2020

1. Are you interested in attending a 3-hour workshop that provides training in a specific topic area?
 - Yes
 - No

2. What topics would you be interested in learning more about during a 3-hour workshop?
 - SMAP Guidance
 - Source Control Inspections, Illicit Discharge Inspections
 - IDDE monitoring, sampling, tools, enforcement
 - Creating Incentive/Funding Programs for Source Control
 - Evaluations/Surveys to measure behavior change
 - Structural Control Program Implementation
 - Stormwater Pond Maintenance
 - Permit Recordkeeping and Compliance
 - How to engage effective online meetings/difficult conversations
 - Education and Outreach during COVID
