

What's Needed

Report on a Conversation with NPDES Coordinators:
Actions needed to address Climate Impacts

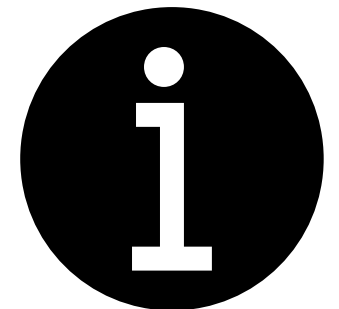

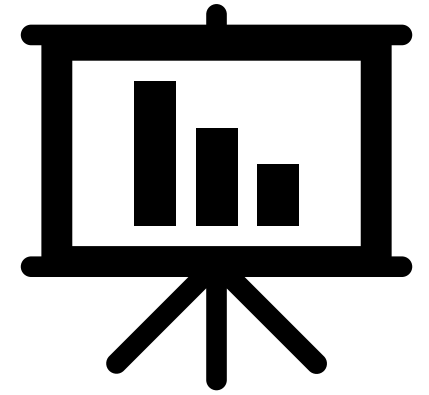

A Conversation Last June '19

- Climate is changing
- How do we adapt?
- Regional Stormwater professionals work well together
- What are the needs?

The Obvious

- Climate Scenarios
 - Thanks Guillaume!
- Modeling and Sizing of SW Facilities
 - Thanks Jeff & Ecology!
- Refinements & Validations
 - Jeff's "crowd sourcing" request

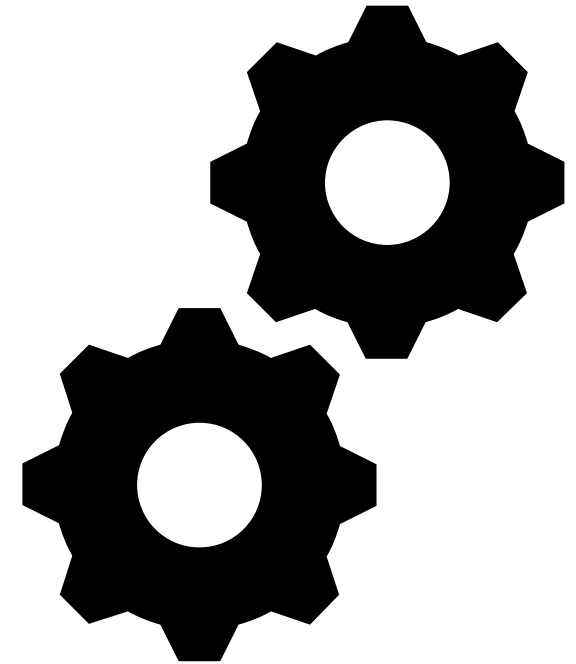

Other Considerations

- O & M considerations
 - More intense storm = More maintenance?
- Finances
 - How much?
 - Grant programs?
- Managing Risk
 - Act now may = less \$
 - Act later may = more \$
 - Or...

More to Consider

- Communication
 - To residents, businesses, electeds, each other
- Can we learn from others
 - Who started doing what? Lessons learned?
- Population Increase
 - 2050 increases
 - “Climate Refugees”

We are Early in Stages

How do we continue push this forward?

Opening to Floor:
What's missing? How do we
move forward?
