Facility/Site Information

[Section Help](#)

Your street address will be standardized against the postal service (USPS) mailing database when you click on the "Select facility/site from map" button. Verification may be necessary.

This Facility/Site's Ownership Type is:

Facility/Site Name:

Street Address:

City:

Zip:

Or

If the facility/site lacks a street address, list its specific location. Example: Intersection of Highway 61 and 34.

Location Description:

Find my facility/site on a map

Please use the pop up map to complete the latitude, longitude and county information below. Use the pencil tool on the map to locate your facility/site at the front door or site entrance. *(The map may take a second to pop up.)*

Latitude:

Longitude:

County:

Use the map to show us where your site is located.

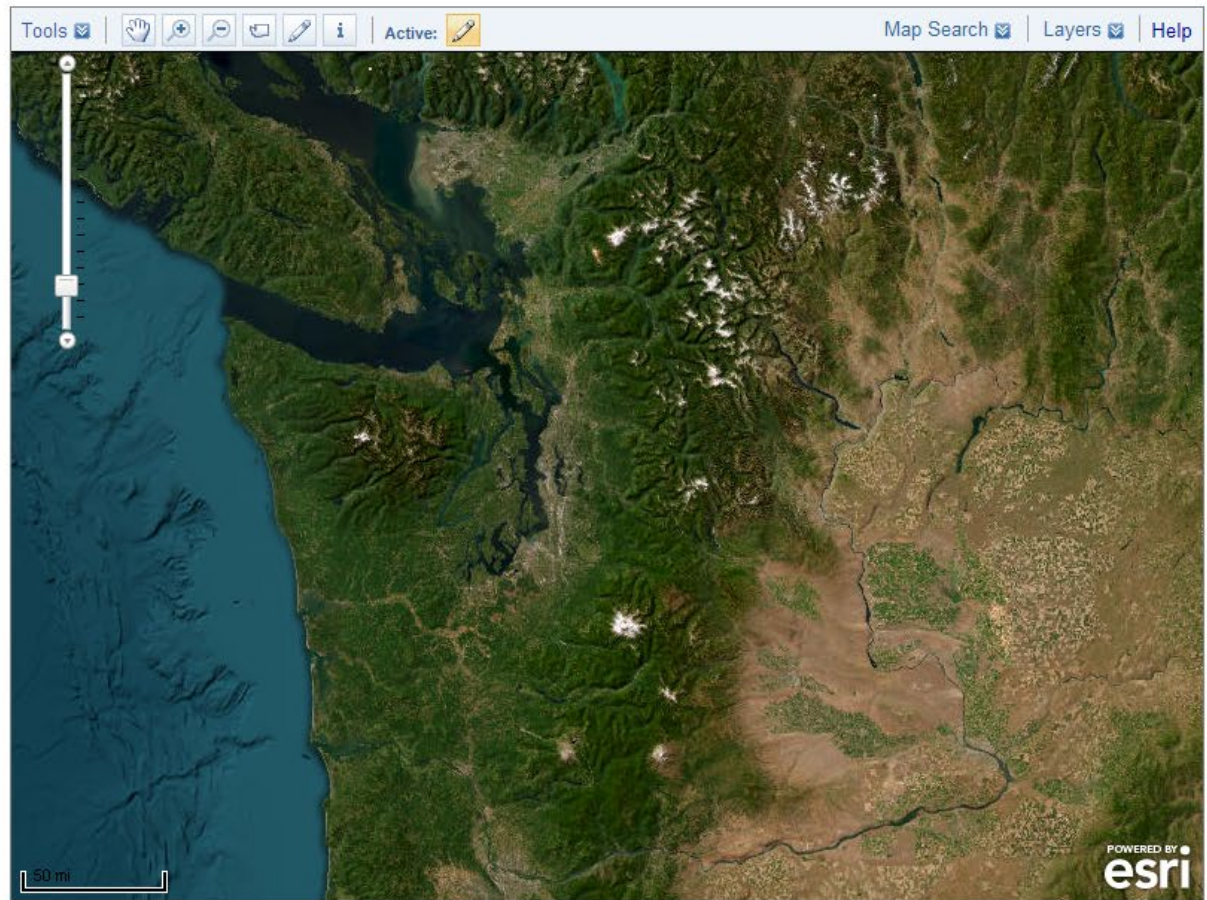

Selecting a Point

1. Zoom in to your location.
2. Click on pencil icon on the map toolbar.
3. Click on the map to select a location.
4. Click the "Save" button.

Search by Lat/Long

1. Click on the "Map Search" button.
2. Click on the "By Coordinates" expand arrow.
3. Enter latitude and longitude.
4. Click on the "Find" button.

Project Information [Section Help](#)

Type of Construction Activity: *(check all that apply)*

- Highway or Road (city, county, state)
 Residential
 Commercial
 Industrial
- Utilities
 Other *(specify)*:

Project/Site Size: acres

Soil Disturbance Size: acres

The total size of the project site in acres. This is all land that is owned or controlled by the permittee.

Total area of soil disturbance for your site/project over the life of the project. Include grading, equipment staging, excavation, borrow pit, material storage areas, dump areas, haul roads, side-cast areas, off-site construction support areas, and all other soil disturbance acreage associated with the project. (Note: 1 acre = 43,560 ft²).

Estimated Project Start Date:

Estimated Project End Date:

Will 1,000 cubic yards or more of poured concrete or recycled concrete be used over the life of the project? Yes No

Site Conditions

Are you aware of contaminated soils present on the site? Yes No

Are you aware of groundwater contamination located within the site boundary? Yes No

Other Permits

Please enter other permits issued by Water Quality for this site.

Discharge Location/Outfall Information [Section Help](#)

If your project includes dewatering, you must include dewatering plans and discharge locations in your site Stormwater Pollution Prevention Plan.

Location of Discharge into Ground or Surface Waterbody (Outfall Location)

Please enter identifying information about the outfall below. Click Save and Go To Map, and you will proceed to a map page. Select the waterbody location (outfall) on the pop up map where the site has the potential to discharge into a waterbody (enter all locations). If you have 100% infiltration, you must select where the infiltration point is as your outfall. *(The map may take a second to pop up.)*

Please complete this form before moving on to the map.

Questions

Stormwater Pollution Prevention Plan (SWPPP)

You must develop a SWPPP prior to starting construction. Do **not** submit your SWPPP with your application. The exception is that Ecology may request a copy of all or part of your SWPPP if you answered yes to the questions under the Site Conditions heading on the Site/Project Info tab.

I have read and agree to the information above

Best Management Practices (BMPs)

You must use the BMPs listed in the Stormwater Management Manual for Western Washington or the Stormwater Management Manual for Eastern Washington or other manuals approved by Ecology. Alternatively, you may use demonstrably equivalent BMPs on the basis of permit condition S9.C.4. If you intend to use a BMP at your site that is not included in these manuals, but that you believe meets the definition of a demonstrably equivalent BMP, you must notify the appropriate regional office. (See Definitions in the Construction Stormwater General Permit).

Note that if you receive permit coverage without indicating the preference for a demonstrably equivalent BMP and later decide to use one, you must provide Ecology with notice of the selection of an equivalent BMP no less than 60 days before the intended use of the equivalent BMP.

Discharge Monitoring Reports (DMRs)

Permittees must submit monitoring data using Ecology's WQWebDMR program.

To sign up for WQWebDMR, or to register a new site, go to <http://ecology.wa.gov/Regulations-Permits/Guidance-technical-assistance/Water-quality-permits-guidance/WQWebPortal-guidance#dmr>. If you are unable to submit your DMRs electronically, you may contact Ecology to request a waiver. Ecology will generally only grant waiver requests to those permittees without internet access. Only a permittee or representative, designated in writing, may request access to or a waiver from WQWebDMR. If you have questions on this process, contact Ecology's WQWebDMR staff at WQWebPortal@ecy.wa.gov or 1-800-633-6193, Option 3 (toll free).

Public Notice

[Section Help](#)

You must publish a public notice at least **once** a week for **two** consecutive weeks with **seven days** between publications, in at least a **single** newspaper of general circulation in the county in which the construction is to take place. Ecology cannot grant permit coverage sooner than the end of the 30-day public comment period, which begins on the date of the **second** public notice.

You may choose to use a system generated public notice and download it below. If not, you need to upload the public notice used.

- I will use the system generated public notice document
- I will upload my own public notice

(Name of operator/permittee), (address of operator/permittee), is seeking coverage under the Washington State Department of Ecology's Construction Stormwater NPDES and State Waste Discharge General Permit.
The proposed project, , is located at in in county.
This project involves -1 acres of soil disturbance fo construction activities.
(List all named and un-named surface waterbodies, or ground water if Applicable).

Clicking the text will copy it to your clipboard, if allowed. [Open notice in a new window for printing.](#)

To add a public notice to your application, select the newspaper name and enter your public notice dates, then click on the "Add" link. If you do not click the "Add" link, the public notice entry will be lost.

Note: This system does not publish your public notice in the newspaper for you. You must submit this application **FIRST**, and then provide the public notice text to your selected newspaper.

| Newspaper Name | First Notice | Second Notice | Action |
|----------------------|----------------------|----------------------|---------------------|
| (Select Newspaper) ▼ | <input type="text"/> | <input type="text"/> | Add |

If you don't see the newspaper you need, contact your Permit Administrator to add it to the list.

For questions...

Please visit our website at: <https://ecology.wa.gov/constructionstormwaterpermit#contact> for contact information.

Changes in Coverage

[Notice of Termination](#) – Used for terminating permit coverage. Typically requested when the project is complete and the site is stabilized.

[Modification/Update](#) – Used for terminating permit coverage. Typically requested when the project is complete and the site is stabilized.

[Permit Fee Activity Status Change Form](#) – Used to request a change in fees based on active/inactive construction (does not actually alter permit coverage).

[Transfer of Coverage](#) – Used to move permit coverage from one entity to another.

[Proposed New Discharge to an Impaired Waterbody](#) – Required for those with discharges to segments of impaired waters which are on the 303(d) list during the time of application.
