

# Do you work in the construction industry?

The Washington Stormwater Center is inviting contractors to attend a series of FREE webinars that will give you the tools to prevent pollution on your construction sites. Hosted by stormwater professionals working across Western Washington, these webinars will provide helpful tips and examples to contractors.

Contractors are tasked with addressing many stormwater requirements. Learn strategies and compliance tips to comply with Washington state and local stormwater requirements. These two webinars will help you to keep your construction sites in compliance. Learn about ways to protect the environment, see examples of what not to do and learn planning strategies to save time and money. Help reduce harm to our waterways, habitat and wildlife and comply with the requirements of the Clean Water Act on your site.

## FREE WEBINARS FOR CONTRACTORS

### Prevention beats Pollution

March 25, 2022 | 3:00 - 4:00 pm  
Register at <https://conta.cc/3vgjQxg>

Do you know how to spot a source of pollution on your construction site? This webinar helps both seasoned and new contractors identify common construction pollutants. Learn how to prepare for a spill you may not expect. Learn tips to effectively utilize your Certified Erosion and Sediment Control Lead (CESCL). You'll learn how to implement stormwater BMPs on sites of all sizes and get pollution prevention and response tips from insiders.

### Clean Water is Good Business

March 29, 2022 | 9:00 - 10:00 am  
Register at [https://conta.cc/\\_\\_\\_\\_\\_](https://conta.cc/)

A construction site free of water pollution is a happy construction site. This webinar helps private contractors improve their pollution control plans and response. You'll hear and see examples of poor pollution management and gain the tools to set yourself up for success on the jobsite.
