

# We Scoop

Scoop the poop, bag it,  
and place it in the trash.

Puget Sound  
Starts Here.org

### Simple things you can do to keep our waterways clean:

- Pick up pet waste • Use compost instead of chemicals
- Wash your car at a commercial car wash
- Plant trees and native plants

**SEPTICS CAN FAIL.**  
You can prevent that. Any questions?

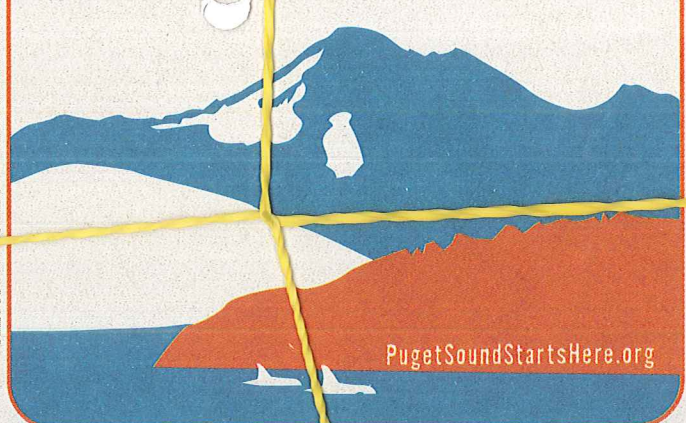

Failed septic systems cause polluted water to leak into groundwater, streams, and ultimately into the marine waters of Puget Sound. Inspect septic systems regularly and pump as needed.

Puget Sound   
Starts Here.org

Water flowing into storm drains and ditches carries harmful toxins directly to local creeks, rivers, lakes and Puget Sound.

**PLANT TREES AND SHRUBS TO CAPTURE RAINWATER.**
